

SAHAL P T

Thrissur, Kerala, India

777sahal@gmail.com | linkedin.com/in/sahal-thaha | github.com/sahal-thaha

Professional Summary

Full-Stack Web Developer with a strong foundation in frontend and backend development, databases, APIs, and secure web application architecture. Experienced in building scalable web applications using React, Node.js, and Python-based technologies. Also skilled in cybersecurity concepts including web security, API security, OWASP Top 10, and secure coding practices, enabling the development of reliable and security-focused applications.

Technical Skills

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js

Backend Development: Node.js, Express.js, Django, RESTful APIs, Authentication and Authorization

Databases: Relational (MySQL, PostgreSQL) | Non-Relational (MongoDB, Redis, NoSQL)

Programming Languages: C, C++, Java, JavaScript, Golang Python, Bash

DevOps & Cloud: Docker, AWS, Microsoft Azure

Operating Systems: Ubuntu, Parrot OS, Kali Linux, Windows

Cybersecurity Knowledge: Secure Coding Practices, OWASP Top 10, API Security, Web Security, Active Directory (AD)

Tools & Platforms: Git, GitHub, VirtualBox, VMware, RabbitMQ, MinIO, Playwright

Professional Experience

Cybersecurity Intern

Beagle Security, Thiruvananthapuram

Jan 2026 — Present

- Conducted **Web and API Penetration Testing** using Burp Suite, OWASP ZAP, and Postman to identify vulnerabilities including Broken Access Control, JWT issues, rate-limiting flaws, and authorization weaknesses.
- Collaborated with a security team to assess and validate vulnerabilities in real-world applications.
- Performed manual testing and exploitation of vulnerabilities beyond automated scanning tools.
- Created detailed **VAPT reports and documentation**, including vulnerability descriptions, CVSS-based risk analysis, and actionable remediation steps.
- Participated in **CERT-In aligned security assessment processes**, performing vulnerability testing, validation, and contributing to detailed security reporting for compliance-driven evaluations.
- Engineered custom **Python-based automated tools** to streamline vulnerability scanning and reconnaissance, reducing manual testing overhead and improving the efficiency of recurring security assessments.

Cybersecurity Student Trainee

Offenso Hackers Academy, Calicut

June 2025 — December 2025

- Selected to join the Research and Development team, contributing to cybersecurity learning initiatives and internal tool exploration.
- Designed and developed a **Capture The Flag (CTF)** challenge focused on real-world vulnerability scenarios and practical exploitation techniques.

Projects

Custom Security Testing Tools

- Developed custom tools to identify vulnerabilities such as **IDOR**, **debug misconfigurations**, and **endpoint exposure** in web applications.
- Built automated crawling and **reconnaissance** modules for efficient target enumeration and attack surface mapping.
- Integrated technologies including **RabbitMQ**, **MinIO**, and **Playwright** for task queueing, storage, and automated screenshot capture.

CTF Challenge Development

- Designed and developed cybersecurity **CTF challenges** focused on **cryptography and digital forensics**, including multi-layered encryption and data analysis scenarios.
- Created challenges requiring manual reasoning, cryptographic analysis, and forensic investigation to solve.

Multimedia Synchronization System

- Developed a real-time multimedia synchronization system enabling users from different locations to watch or listen to content together.
- Implemented room-code authentication for seamless user connectivity and synchronized playback.

Education

B.Tech in Computer Science Engineering

Nov 2021 – Mar 2025

APJ Abdul Kalam Technical University, Thiruvananthapuram

Certifications

- Offenso Certified Security Professional (OCSF) — Offenso Hackers Academy
- Certified Cybersecurity Educator Professional (CCEP) — RED TEAM LEADERS
- Python Course for Beginners — Perfect eLearning Pvt. Ltd.
- Linux 100 Fundamentals — TCM Security Academy

Soft Skills

Teamwork • Adaptability • Fast Learner • Problem Solving • Communication

Languages

English: Professional Working Proficiency

Hindi: Conversational

Malayalam: Native
